Professional Summary

Final-year B.E. Computer Science and Engineering student with hands-on experience in Python, Java, JavaScript, web development, backend development, databases, and computer vision. Experienced in developing web-based applications and AI-based projects with an interest in software development, problem solving, and building practical technology solutions.

Education

Bachelor of Engineering in Computer Science and Engineering	2023 – 2027
Maratha Mandal Engineering College, Belagavi	CGPA: 8.4
Pre-University Course (PUC / Class 12)	2021 – 2023
Percentage: 82.33%	
Secondary School Leaving Certificate (SSLC / Class 10)	2021
Percentage: 80.64%	

Technical Skills

Programming Languages: Python, Java, JavaScript

Web Technologies: HTML, CSS, JavaScript

Backend Technologies: Flask

Databases: SQL, SQLite

AI and Computer Vision: YOLOv8, Computer Vision

Developer Tools: Git, GitHub, Visual Studio Code

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Computer Networks, Operating Systems, Problem Solving, Debugging

Projects

SafeCam – AI-Powered Real-Time Accident Detection and Alert System *Ongoing*

- Developing a web-based accident detection system using Python, Flask, YOLOv8, and computer vision to analyze traffic video.
- Integrated YOLOv8-based object detection with a Flask backend for processing video and identifying accident-related events.
- Developed web interfaces for accident monitoring, alerts, and incident history using HTML, CSS, and JavaScript.
- Integrated SQLite database functionality for storing accident records and managing emergency alert information.

College Query Chatbot

- Developed a web-based college query chatbot using Python, Flask, HTML, CSS, JavaScript, and SQLite.
- Implemented database-backed chat history and query management for student interactions.
- Developed an admin dashboard for managing frequently asked questions and monitoring unanswered queries.
- Designed an interactive chat interface with quick-response functionality for common college-related queries.

Internship

Web Development Intern – SkillCraft Technology *1 Month — Online*

- Developed responsive web interfaces using HTML, CSS, and JavaScript during a one-month web development internship.
- Implemented interactive frontend features and practiced debugging and problem solving through assigned development tasks.
- Gained practical experience in frontend development and web application development workflows.

Certifications

- Python Programming Certificate
- Web Development Certificate

Soft Skills

Quick Learner — Attention to Detail — Strong Logical Thinking — Team Collaboration
